

Introduction of Citibank's "Money Lock" Feature

From June 2024, the "Money Lock" feature will be made available on the Citi Mobile® App and Citibank Online. This feature allows you to lock up your funds under existing current/savings accounts as a preventive measure against the rise of malware or related scams.

For added security, locked funds can only be released by raising an unlock request via Citiphone hotline or in-person at one of our Wealth Centres†/Citibank Branch.

For more details, refer to: citibank.com.sg/moneylock

†Available only for Citigold and Citigold Private Clients.
